# Feedback from NOVEMBER 2020

UbuntuNet 8 CONNECT 8

**Virtual Event** 

18-20 November 2020

Document confidentiel – ne peut être reproduit ni diffusé sans l'accord préalable de Sorbonne Université.

## Agenda

1. KEY FIGURES: SORBONNE UNIVERSITY

2. LANDSCAPE OF NETWORKS

RENATER – French NREN and access networks Géant – Pan-European data network

- 3. FIRST LOCKDOWN IN MARCH
- 4. SECOND LOCKDOWN IN NOVEMBER

SORBONNE UNIVERSITY

## **Sorbonne University**

- •55 000 students
- 10 000 staff members including 6400 teachers and researchers
- •450 000 alumni
- Top 50 in international ranking
- Involved in partnerships
  - »Europe (Germany, Denmark, Italy, Czech Republic, Poland, Ireland,...),
  - »Latin and North America,
  - »Africa, Asia, and Australia
- → Sorbonne University needs fawless communication networks to exchange with its staff, students and partners.

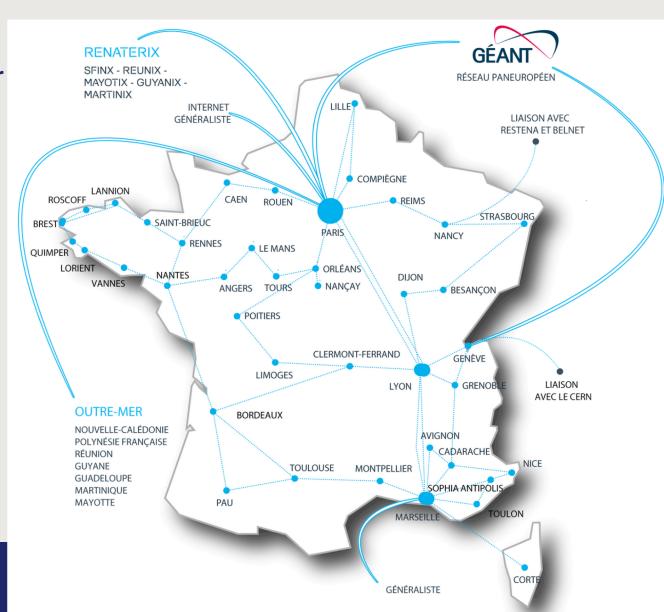

EUROPEAN RESEARCH AND EDUCATION NETWORKS

### French NREN - RENATER

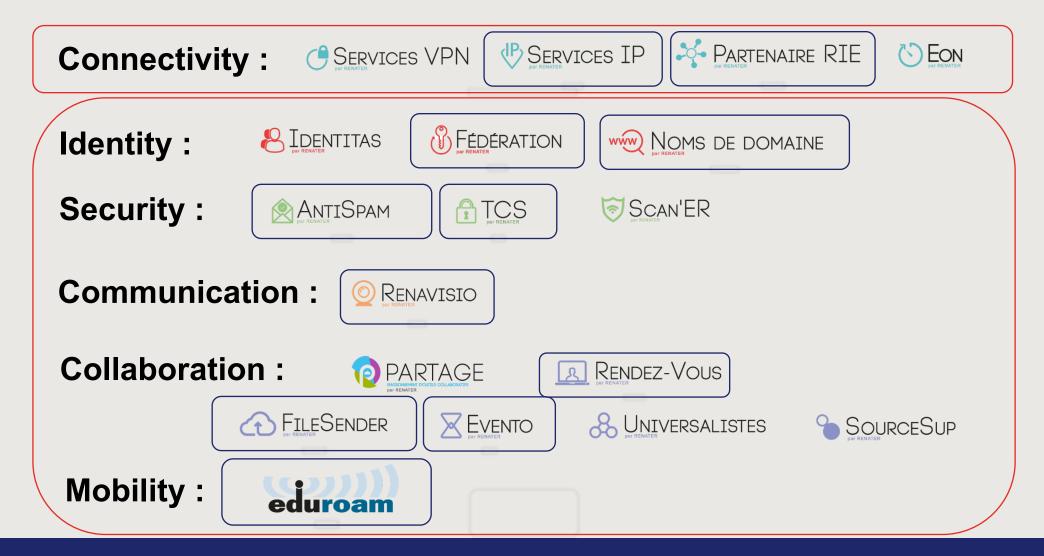

- Reliable and secure national fiber infrastructure dedicated to R&E +1300 sites connected
- RENATER owns its infrastructure
  - Transports the national interministerial backbone
  - Transports specific research signals (Time frequency, LHC data, quantum keys...)

 Interconnects national HPC centers, datacenters, large research instruments

## **RENATER Portfolio**

## **Pan-European Networks**

Sorbonne Géant is a pan-European data network

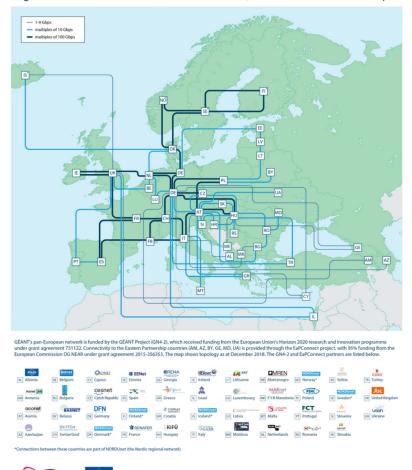

- Interconnects NREN inside Europe
- Interconnects Europe with a Global Research and Education network

#### For

- Connectivity
- Mobility
- Services authentication

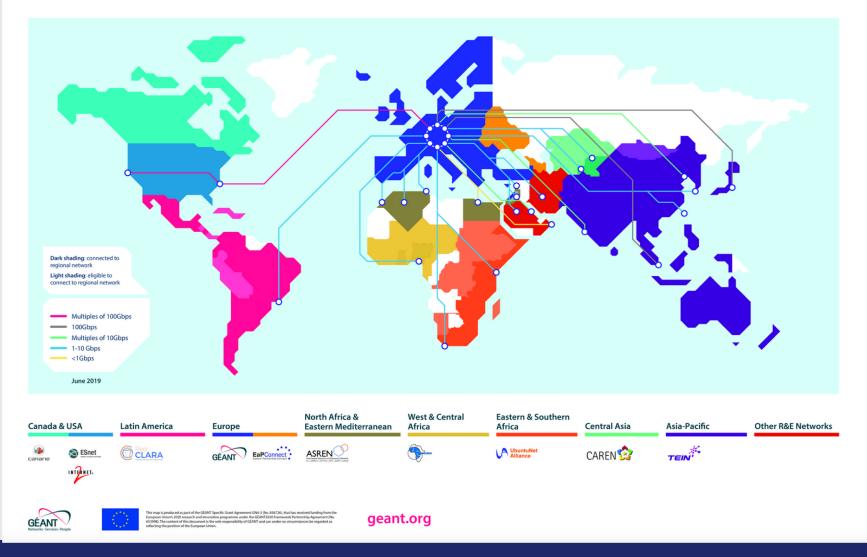

GÉANT's pan-European research and education network interconnects Europe's National Research and Education Networks (NRENs). Together we connect over 50 million users at 10,000 institutions across Europe.

## AT THE HEART OF GLOBAL RESEARCH AND EDUCATION NETWORKING

**LOCKDOWN IN MARCH 2020** 

#### Lockdown - March 2020

#### Sobonne University IT

- A never encountered experience
- Remote access has never experienced such an outstandingly high demand
- Generating user anxiety and IT staff discomfort

#### NREN support

- First and foremost, connectivity
- Then availability and capacity
- → NRENs have in real time increased peering and exchange points with public operators to enable remote work.
- → They gave us time to find and provide commercial or non-commercial solutions for our users

#### Lockdown - March 2020

We have learned from the previous one

- Don't ask too much to your NRENs, their first job is network connectivity
- Your infrastructures are more powerful than you thought, but stay alert and provide better solutions
  - »A webinar cluster in the cloud (80 servers, 8000 BBB sessions) to enable distance learning »A cluster in the cloud to increase "on demand" capabilities

#### Our users

- Confident and ask for improvement
- IT infrastructure is not the only point, staff and students especially scholarship recipients need laptops

#### **MERCI**

THANK YOU FOR YOU ATTENTION!
